INTRODUCING THE SMART SOLUTION

FOR YOUR WINDOWS AND DOORS

Integral Blinds for privacy and light at your fingertips

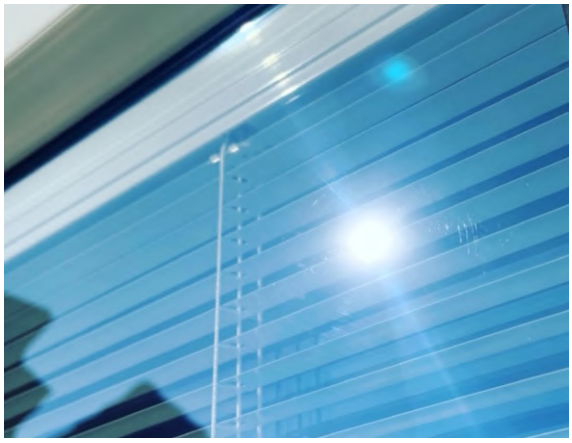

BLINDS IN GLASS
GROUP LTD

OUR INTEGRATED BLINDS PROVIDE A SMART SOLUTION FOR ANY WINDOW AND DOOR WITH ITS CLEVER CONTROLS FOR FUNCTIONALITY.

Blinds In Glass Integral Blinds are great for all bi-fold doors, casements and fixed panels. Sealed within the glazed units, blinds stay clean and free of damage. No dusting, no tangled or hanging cords, no crimping or denting and because they're protected between glass they retain their pristine quality over time and with repeated use.

The factory fitted blind is encapsulated within the two glass panes of a double glazed unit, with thermal efficiency and a 10-year glass seal warranty for complete peace of mind.

SAY GOODBYE TO MESSY BLINDS

Windows with blinds between the glass allow homeowners to control light and privacy levels while eliminating the hassle of cleaning window blinds, all in a child- and pet-friendly package.

Blinds In Glass built-in blinds make the ideal window treatment for a wide variety of windows and doors.

EASY TO USE

Blinds In Glass + Glass units feature easily accessible, ergonomically designed controls for easy operation. Fingertip control allows you to raise and lower blinds the entire length of the glass—with only the slightest movement required—and then tilt them a full 180° to direct and control light and privacy.

RAISE & LOWER BLINDS BETWEEN GLASS

Blinds In Glass integral blinds provide privacy and light control at your fingertips with ultimate convenience. You never have to dust the blinds because they are sealed between two sheets of tempered safety glass.
