

ENDURANCE®

Solid & Secure Composite Doors

PROTECT YOUR HOME WITH A SOLID AND SECURE DOOR

endurancedoors.co.uk

Safety, Security & Style.
It all starts with an
Endurance Door.

Renowned for their strength and security, an Endurance Door means you'll enjoy peace of mind every time you turn your key.

The 48mm thick solid timber core of an Endurance Door is up to 10% thicker than other doors on the market, a difference you'll hear each time you close your door. Whilst other doors may click shut, the reassuring clunk of an Endurance Door lets you know that your home is both safe and secure.

Each Endurance Door has a host of unique features that make it the most durable and hard-wearing door available. Designed to stand the test of time, your Endurance Door will require very little maintenance to keep it looking great for years to come.

Use our innovative HomeView Door Designer to try our range of door styles, colours, glazing and hardware accessories on a photo of your own home.

Why Choose Endurance?

Safety, Security & Style.

Your Door. Your Style

With over 85 stylish door designs, 18 colours and an amazing choice of glazing and hardware accessories within our range, you're sure to find the ideal fit for your home.

Let our brochure be your source of inspiration before heading over to our online HomeView Door Designer.

Solid to the Core

The core of an Endurance Door is made up of 17 crossed layers of engineered timber, giving them unrivalled strength and a reassuring feel of quality.

Choose an Endurance Door to make would-be burglars think twice.

Built to Last

Every Endurance Door is made with an integrated Moisture Barrier Strip at the foot of the door.

This unique feature means that the timber core of an Endurance Door is protected from water ingress, removing the risk of swelling or sticking.

Secured By Design

Secured By Design is the official UK Police initiative supporting the principles of 'designing out crime'. The Endurance Door design achieves this standard when combined with laminated glass and the 3 Star High Security ABS Ultimate locking cylinder.

In order to meet this standard the Endurance Door range has been put through a series of rigorous tests, designed to replicate methods a burglar might use to gain entry to your home. Including:

- A manual attack on the locking hardware, including a crow bar and mole grips
- Unlimited number of 3 minute attacks on the door cylinder using a range of tools such as screwdrivers and craft knives
- 3 minute manual attack using chisels and brick bolsters to gain entry through the door
- Hard Impact Test - The door is struck with a 50kg steel impactor at its hinge and locking points

Secured by Design
SBD
Official Police Security Initiative

SLEDGEHAMMER-PROOF

To demonstrate the strength, solidity and security of the Endurance Door, we enlisted the help of former Gladiator, Hunter. Armed with a 20lb sledgehammer, we challenged Hunter to find a way to crack our framed solid timber core.

Scan the above code with the camera on your Smartphone to see how he got on.

Locking Cylinder (A)

Every Endurance door comes with the High Security, Sold Secure Diamond Grade ABS Ultimate locking cylinder.

High Security Multi-point Locking System (B)

Our locking systems are tested to Secured By Design specified PAS 24 Security Standards

Solid Timber Core (C)

48mm thick cross laminated solid timber core makes the Endurance Door the most solid and secure on the market

Moisture Barrier Strip (D)

Our unique moisture barrier strip is concealed within the foot of the door - preventing the Endurance Door from warping or swelling

Hardware Accessories (E)

Our Hardware Accessories have been rigorously tested to ensure their durability - so you can count on them to look great for years to come

Hard Wearing Door Skin (F)

CoolSkin® technology used to produce our door skins offers a realistic woodgrain texture whilst protecting against delamination, cracking, bowing or warping

PVCu Door Frame (G)

Our door frames are strong, secure and energy efficient. They are even made from environmentally friendly recycled plastic

Thermally Toughened Glazing (H)

Our range of stylish decorative glazing has been thermally toughened, offering the best in security whilst also looking beautiful

The UK's Most Solid & Secure Composite Door

Locking Options

Secured by Design
Official Police Security Initiative

Our range of Locking Mechanisms offer an exceptional degree of security, meaning you can relax knowing your home is protected by some of the most tried and tested locking technology available.

Trulock+	AV2 Automatic Lock	AV3 Automatic Lock
A modern-day locking system with two tensile steel hooks and a centrally located deadbolt. Ideally suited to doors with Lever/Lever or Lever/Pad handles. Lift the handle to engage the locking mechanism and lock with a key.	This locking mechanism automatically locks once the door is slammed shut, with firing pins engaging the two tensile steel hooks. The deadbolt is then activated by turning the key. The door can then be opened internally using a thumbturn cylinder, but remains completely secure from the outside. Ideal for doors with fixed external handles. Once locked, entry from outside is gained by use of a key.	The AV3 Locking mechanism has a magnetic trigger in its frame that causes two tensile steel hooks and two separate weather sealing elements to fire automatically once the door is slammed shut. An optional daytime release function can be activated to temporarily stop the door from automatically locking once closed. Ideal for doors with fixed external handles. Once locked, entry from outside is gained by use of a key.

Locking Cylinder Positioning

Standard Position

The standard locking position of the Trulock+, AV2 and AV3 is mid-way down the door.

Heritage Position

The AV2 and AV3 Automatic Locking Mechanisms are available in a Heritage variation. This locking position is ideal for bringing a traditional feel to your entrance and can be combined with any of our fixed handle options.

High Security Locking Cylinder

At Endurance Doors, we believe everyone has the right to feel safe and secure in their own home.

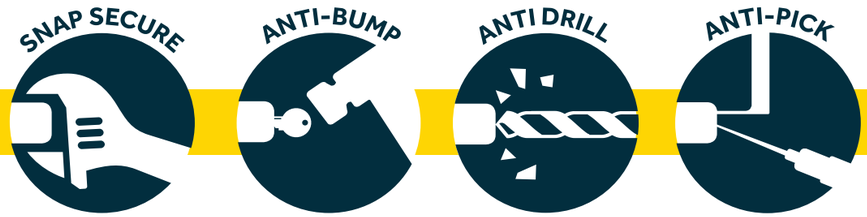

That's why every one of our doors is supplied with the innovative ABS Ultimate High Security Locking Cylinder, one of the most secure locking cylinders in the UK.

The clever locking system of the ABS Ultimate knows when it's being attacked, with a hidden locking mechanism that automatically engages to stop would-be burglars in their tracks.

Lock snapping has become the preferred entry method for UK criminals and the ABS Ultimate Locking Cylinder has another trick up its sleeve to keep burglars at bay. A sacrificial cut is used so that when the burglar grabs the end of the cylinder, just the tip snaps off, leaving more metal in front of the central locking mechanism as protection.

Having been tested to Sold Secure 'Diamond Grade' standards, the ABS Ultimate Locking Cylinder has achieved a level of security that far surpasses other locking cylinders on the market.

£1000
SECURITY GUARANTEE

We are so confident in the unprecedented level of security offered by the ABS Ultimate Locking Cylinder used in our doors, that in the unfortunate event your home is broken into by means of snapping the cylinder, we will offer £1,000 in compensation.

Terms & conditions apply. See website for full details.

Your Choice, Your Colour

Endurance Doors are available in your choice of 18 different colours, with the option to choose an alternative colour for the exterior and interior of your door. Most of our customers choose a white internal finish, but with so many different colours available the choice is yours.

We're also able to offer perfectly matching door frames for most of our door colours too.

*Not available as a matching coloured frame. For doors of this colour we recommend a white or cream frame.

ENDURANCE PREFERRED INSTALLER

You're in safe hands with our Preferred Installer Network

We only select the most talented installers to join our Preferred Installer Network, so you can be sure your Endurance door will be installed to the highest possible standard.

All of our Preferred Installers have full access to not only the most solid and secure composite doors in the UK, but to our knowledge and expertise too.
With one of our Preferred Installers, you can be sure of the best advice on choosing the right door for your home and the highest quality installation.

PREFERRED INSTALLER CHARTER

To ensure that our Preferred Installers reach our high standards they must meet the following criteria:

- Have a track record of installing Endurance Doors to our agreed fitting standard
- Have a clearly defined customer care policy that places the needs of the homeowner first
- Have clearly defined policies for monitoring service levels and handling complaints
- Have an excellent knowledge of our products and are specialist Endurance Door installers

"I just love absolutely everything about my door.

From the style, the quality, the way the door has been fitted. It's just amazing."

- Karen

"The installation was such a smooth process. For a big job, it was done quickly and efficiently by people who knew what they were doing and were professional and friendly.

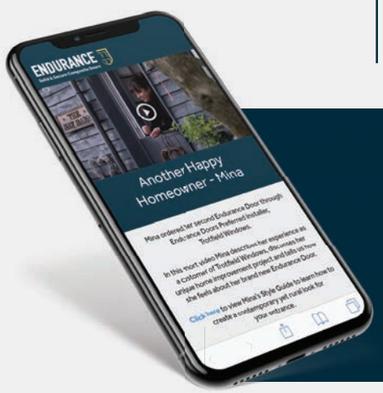

It was really easy!"

- Louise

"I would definitely recommend Endurance Doors to my family and friends. I have two of them at my current home and would definitely have them again at my next property."

- Mina

SCAN ME

The *Classic* Collection

Our range of Classic door designs look fabulous when combined with some of our more intricate triple glazed glass designs. Combining detailed leaded shapes, bevels and varying textures, our triple glazed designs are a modern take on traditional glazing methods. Offering you the best in style whilst also being thermally efficient and secure.

The *Classic* Collection

Designs inspired by the Georgian and Victorian eras. If you're looking to add some classic character to your home, this collection is your range of choice. Our realistic woodgrain effect skins mean your new Endurance Door will look just like natural timber whilst being solid, secure and virtually maintenance free.

Get The Look: Classic & Captivating

Classic & Captivating

A timeless look that will always be the height of sophistication. Traditional styling is carefully considered, with every element of your entrance chosen to work in harmony.

TOP TIP:

Complement any of our muted pastel colours with brightly coloured flowers to give your entrance instant impact.

Going Grey Never Looked So Good

Give your entrance a contemporary edge by opting for a Pearl Grey finish. The pastel tone of Pearl Grey will give your entrance a sophisticated and luxurious appeal.

Let the Light In

One of our most popular glazing styles, Riviera is a beautiful triple glazed design with a combination of bevels, lead and textured glass. Fill your hallway with natural light whilst still maintaining your privacy with this classic design.

Complete The Look

Graphite accessories complement the pastel hue of the Pearl Grey door colour.
The traditional Urn Knocker is a popular choice alongside any of our Classic Door Styles, whilst the Heritage Finger Pull really completes the Traditional Look.

Who lives here?

Showcase your individual style by accessorising your entrance. Simple styling of your entrance way can make the difference between having a nice door or creating a beautiful entrance to your home.

View our Classic & Captivating Style Guide online. Scan this code with the camera on your Smartphone to get inspired now.

The Country Collection

Antique Black hardware is the ideal way to bring a handcrafted appearance to your door from the Country Collection. The textured surface of the hardware gives it an industrial quality that really complements the authentic woodgrain effect of an Endurance Door.

The *Country* Collection

Our Country Collection features a range of traditional shiplap styles that look fantastic in earthy tones such as Pebble or any of our woodgrain finishes. These designs are ideal for bringing a charming, heritage feel to your home.

Get The Look: Industrial Vintage

Industrial Vintage

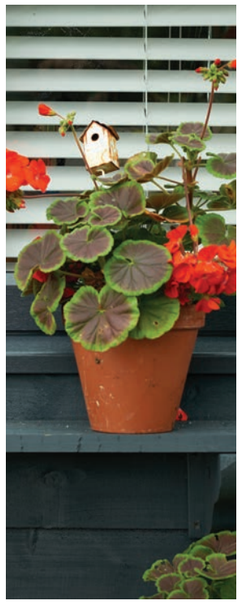

Industrial Vintage is about proudly displaying the building materials that many try to conceal. It's about adding a raw, unfinished look to the most thoughtfully designed entrances.

Wood + Metal: A Match Made In Heaven

The authentic timber detailing of an Endurance Door, coupled with the shiplap style of the Rushmore Georgian gives this door a raw and handmade feel. Choose Anthracite Grey to add cool metallic vibes and continue the Industrial theme.

Less Can be More

Far from boring, clear Ornate glazing has been chosen to offer a simplistic, no nonsense look to this entrance. Opting for clear glazing has also enabled this homeowner to add an extra layer of styling in the form of a decorative interior blind.

TOP TIP:

One of the key elements to achieving an industrial look is the use of texture. Here, timber cladding, galvanised steel milk pails, terracotta pots and a woven interior blind complement each other, adding a variety of different textures and materials to complete the look.

Experiment with Colour

Whilst a pared back colour palette is key to achieving an Industrial Look, you can experiment with adding in carefully considered colours to add a little intrigue to your entrance. Here, the homeowner has chosen to use plants to add in splashes of colour to great effect.

View our Industrial Vintage style Guide online. Scan this code with the camera on your Smartphone to get inspired now.

The *Urban* Collection

The styles within our Urban Collection are characterised by their intentional symmetry. Combine these styles with any of our Grey or Black colours and a simplistic glazing design for an ultra-modern appearance.

Get The Look: Urban Luxe

Urban Luxe

Clean, crisp lines, a simple colour palette and the use of materials like steel, chrome and glass will give your entrance a modern chic look.

Simple Styling

Straight lines and stylish detailing are key features of the Alto Design. Coupled with one of our Grey or Black colours, this style is sure to add instant kerb-appeal to any home that leans towards a more modern appearance.

Urban Steel

Continue the simple styling of your entrance with a Stainless-Steel Pull Handle. Available in a variety of lengths, opt to make a style statement with a long pull handle or choose functional and understated with a smaller size.

Keep your Privacy

Wanting to maintain your privacy whilst still having a light and airy hallway? Choose Satin glass to enjoy the best of both worlds.

Complete the Look

For a seamless look, match the colour of your windows and garage door to the colour of your stylish new Endurance Door. All of our Grey colours are readily available from other suppliers who manufacture both windows and garage doors.

View our Urban Style Guide online. Scan this code with the camera on your Smartphone to get inspired now.

Double Doors

DOUBLE DOORS

Give your entrance instant wow-factor with a set of solid and secure double doors from Endurance. Our double doors are available in an extensive range of styles and finishes, and to offer versatility an offset double door is available too.

Our full range of double door designs are available to view on our HomeView Door Designer at endurancedoors.co.uk

Stable Doors

STABLE DOORS

Open up the inside of your home with our range of stable door designs. Suitable as both a front and back door, our extensive range of styles and colours are the ideal way to add a personal touch to your home.

Endurance stable doors come with two completely separate locks, with a high strength centre gear box, a handle operated top lock and a key/thumb turn operated bottom lock. These locks come keyed alike, meaning both locks can be opened with a single key.

- The key operated bottom lock escutcheon is available in a variety of finishes.
- The internal centre locking bolt is available in gold and chrome finishes.

COMPLEMENTING HARDWARE

Whilst we do not offer a fully suited range of Urban hardware, we recommend choosing a Graphite letterplate and knocker from our Architectural range to complement your pull bar.

When selecting items of hardware from different ranges, please be aware that there may be slight variations in colour and finish.

Forged Hardware

Our new Forged range was developed to replicate the finish of traditional iron forged hardware, with the benefits of state-of-the art manufacturing.

Modern manufacturing methods ensure a repeatable finish to deliver a polished but hand-made appeal.

LETTERPLATE

KNOCKERS

Choose between the elegant and understated Bull Ring Knocker or opt for a the more elaborate Spire knocker to add a little wow factor to your new door.

Spire Knocker

Our Green Promise

Environmental concerns and energy efficiency are core to our company ethos. We appreciate the need to act responsibly, but at the same time offer our customers new advances that 'thinking green' has to offer.

Our accreditations:

FSC www.fsc.org FSC® A000521

PEFC

1. We've reviewed our work systems and wherever possible minimised our waste and energy.

2. We manage an extensive recycling programme which covers packaging, polystyrene, cardboard, PVC-u, timber, paper, aluminium and steel.

3. All of the timbers used in our doors are harvested from forests which are managed to meet the social, economic and ecological needs of present and future generations.

4. The laminated veneer core is fully environmentally accredited which includes PEFC and full BM Trada 'Chain of Custody'. Chain of Custody certification outlines the requirements for tracking certified materials from the forest to the final product to ensure that the wood contained in the product originates from certified forest.

5. Renewable and recyclable, Kerto is a highly eco-effective door core material, throughout its life cycle. The timber is sustainably managed PEFC/FSC – certified from Finnish forests. PEFC and FSC certification ensures that the entire forest supply chain promotes good practice in the forest and ensures that timber products are produced with respect for the highest ecological, social and ethical standards. This includes protection of Indigenous peoples rights to the methods of felling trees.

6. Our transport department have reviewed their schedules to ensure that deliveries are made in the most fuel conscious manner possible, whilst preserving our assurances on delivery times.

7. The vehicles we use have a heritage of fuel economy; low-rolling-resistance tyres, start/stop, cruise control and energy recuperation. Working together, they create instant fuel savings and lower emissions.

8. In the manufacture of Endurance doors we aim to source thermoplastic components and materials that contain lead-free stabilisers which are better for the environment.

9. The 5 chamber door outer frame PVCu profile has been specifically designed for thermal efficiency and is calcium organic using lead free stabilisers.

Endurance Doors are tested to:

BS 6375-1:2009
Classification for weather tightness

BS 6375-2:2009
Classification for operation and strength characteristics

BS EN 10077-1:2017
Classification for thermal performance of doors

PAS24:2016
Classification for enhanced security for key/key operation

PAS24:2016
Classification for enhanced security for key/thumb turn operation

ENDURANCE®

Solid & Secure Composite Doors

All colours and images are a visual representation only. We recommend you request to see colour samples from your chosen Preferred Installer. Slight variations in colours and finish may occur due to the handcrafted nature of the product or the limitations of the printing process. As it is company policy to improve products and materials, changes to specification may be made from time to time without prior notice.
